

Secabo TC 7 heat press

Due to the grand scale working area of 41 x 51cm, the Secabo TC 7 suits highest demands in all areas of textile finishing. It can be used to apply any common hot transfer method like flex, flock, sublimation, inkjet-flex, chromablast etc. professionally. With the digital temperature time controllers, all settings can be adjusted very easily and convenient. The pressure is adjusted through a handle on top of the heat press. The TC 7 clam press offers a high clam angle for aligning transfer items quickly and precisely.

Feature Übersicht:

digital controllers

Time and temperature can easily be set and controlled by the digital controllers.

WarrantyPLUS optional

Optional Express Exchange Service WarrantyPLUS 12 or 24 months for a simple replacement of the device in case of damage.

big working space

With the high clam angle of 50° objects can be aligned precisely

variable pressure

the pressure can easily be adjusted - depending on the technology and object

safe use

The safety and quality of the machines is permanently controlled by German safety standards

exact temperature distribution

The high- quality heat plate ensures an exact temperature distribution over the whole heating plate

little hysteresis

The temperature controllers reduce temperature fluctuations to a minimum

technical data:

heat press:	Secabo TC 7
Type:	Clam Transferpresse, Klappresse
for:	41cm x 51cm
Klappwinkel:	0° - 50°
max. temperature:	260°C
max time setting:	9999s
Max pressure:	250g/cm ²
Pressure setting:	Höhenverstellung der Heizplatte mittels Handrad
Power supply:	Wechselspannung 230V / 50Hz - 60Hz, 2,50kW
Environment:	+5°C - +35°C / 30% - 70% humidity
Weight:	41kg
dimensions(W x H x L):	42cm x 36cm x 75cm
scope of delivery:	heat press, cable, manual

erhältliches Zubehör:

silicon mat 40cm x 50cm - heat resistant mat made of silicon to compensate unevennesses (e. g. tiles) and to protect damageable surfaces during heat transfers, 40cm x 50cm, 1mm thick

heat plate protection with PTFE coating 40 x 50cm - Self adhesive glass fibre film with PTFE coating made in Germany. Replacement for damaged or worn non-stick coatings of heat plates, sheet of 40cm x 50cm, 150µm thick.

Exchangeable base plate 8cm x 12cm - Exchangeable base plate for almost all Secabo heat press models, 8cm x 12cm.

Exchangeable base plate 15cm x 15cm - Exchangeable base plate for almost all Secabo heat press models, 15cm x 15cm.

Exchangeable base plate 20cm x 30cm - Exchangeable base plate for almost all Secabo heat press models, 15cm x 15cm.

Exchangeable base plate 12cm x 38cm - Exchangeable base plate for almost all Secabo heat press models, 12cm x 38cm.

cross laser - flexible cross laser for positioning aid of transfer objects. Suits all Secabo heat presses
